SWODXA DXpedition of the year 2021

The Southwest Ohio DX Association (SWODXA) is proud to announce that the 2021 DXpedition of the Year award goes to **VP8PJ**, South Orkney Island. The DXpedition team consisted of: Dave, K3EL and Les, W2LK (co-leaders); Gene, K5GS; Arliss, W7XU; Heye, DJ9RR; Laci, HA0NAR; Vadym, UT6UD; Walt, N6XG, Rob, N7QT; Steve, W1SRD; Mike, WA6O; Ken, NG2H; Hans-Peter, HB9BXE; and Alan, VK6CQ. Congratulations on a well-organized and executed DXpedition in a very challenging environment.

DX-World Quiz #29

The last quiz was 20 days ago, so here's a new one. Pass mark still at 60% (you are allowed to get 4 wrong!). The next quiz will be a combination of questions from the previous 29 quizzes and will run to 30 questions.

About Gertjan, PA3CPG

Gertjan, PA3CPG and his wife are living (and working) in Africa for over 20 years now, currently in Masvingo, Zimbabwe. Gertjan has been active as PA3CPG, 9J2GS, 3D6CW, Z2/PA3CPG, C30BBP and now **Z21DX**. His most active period was as 3D6CW: he made several tens of thousands QSO's from Swaziland.

Lately, Gertjan hasn't been too active due to the fact that there are no QSL facilities and the post is very unreliable: during his 20 years in Africa only a few QSL's arrived.

Every year Gertjan participates in the Dutch PACC contest. In his active years he had a QSL manager but that service stopped – that's the main reason Gertjan slowed down his DXing: he feels sorry he cannot provide a QSL to the ones that need one. However, new QSL info will soon be provided.

VK9XX Christmas Island –update by Steve VK6SJ

Hi everyone! I'm enjoying the pileups on FT8 and SSB! Thanks for calling me!

Couple of things I'm noticing on FT8 though. Fox & Hound mode works like this; I sit on 300Hz. Everyone else sits above 1000 Hz. When I decode you above 1000Hz, you go into a list. I then pick contacts from the list which go in to a 12 position queue. Once you are in the queue it can still take 5-10 minutes to work your way up. The beauty of this mode is that even the more modest stations can get into the queue. If you call below 1000 Hz, I can see you, but the software has no means of putting you on the list and I cant answer you. So the only thing that happens when you call below 1000Hz is that your radio warms up. I have seen a bunch of calls between 990 and 1000Hz.

North American QSO Parties to recognize young contesters entries (TNX KY7M)

To encourage young radiosport participants, *National Contest Journal (NCJ)* will recognize their entries in the North American QSO Party ([NAQP](#)), starting with the August 2021 NAQP CW and NAQP SSB events. Following the lead of Youth on the Air ([YOTA](#)) in International Amateur Radio Union Region 1 ([IARU](#)), operators 25 years old and younger will be highlighted in the results. The NAQP log upload app and 3830scores.com will include a "Youth (25 and under)" check box. Initially, the young operator designation will apply only to single-operator entries. This is not a separate category. Participants of any age will compete for awards in the regular single-operator category. 3830 Scores will display the young operator scores as an overlay to the single-operator group. NAQP line scores will note the young operator scores and a separate table of these scores will be included in the results and referenced in the NCJ "NextGen Contesters" column by Neil Rapp, WB9VPG.

Russian District Award

<http://rdaward.org/indexeng.htm>

Our diploma program has been around for 20 years, and its main goal is to get cfm for QSO with all districts of Russia.

We have developed an automatic RDA district cfm specifically for fulfilling the requirements of the diploma program:

<https://mydx.eu>

This service makes the participation as easy as possible. You do not need to create an application and send it to the Diploma Manager – all you need to do is to send in your payment and your post address. You can get either one or several diplomas – it is up to you. For your convenience we have created special version of RDA dx-cluster where you can easily see those RDA-s that you don't have confirmed yet.

You also have a possibility to have a sound notification when your unconfirmed RDA is spotted. Go and check it out:
